FIBERGLASS HEATING JACKETS FOR DRUMS (FOR TEMPERATURES UP TO 200 ° C)

Equipped with an easy to use thermostat with a heating range from 0 - 200°C makes this drum heater ideal for almost any purpose (the maximum temperature can vary due to the maximum temperature of liquids).

The high temperature range drum heaters are designed in a durable and long lasting high quality lightweight design and the construction together with quick release webbing straps makes the drum heater easy to attach to any standard size metal drum.

The durable material and the tight drum fastening straps make the drum heater optimal for transporting and at the same time very long lasting.

Technical Specifications:

- Silicone/Glass fabric jacket
- Glass filament insulation
- Teflon heating wire.
- Adjustable quick release buckles
- 3 meter power cable
- Standard sizes e.g. 200 liters.
- Thermostat 0-200°C
- IP40 Protection
- Warm-up duration approx. 28h (200 Liters water from +15° C to +80° C with a 1200 W drum heater)
- The base drum heater may be used additionally

Model	Drum	Size	Volt	Watt
MFV 800/200	200 L	1990x800 mm	230V	1200 W
MFV370/100	105 L	1650-370 mm	230V	700 W
MFV460/050	50 L	1330-460 mm	230V	440 W
MFV400/025	25 L	1200-400 mm	230V	380 W
